Please let me know if you have any problems with this file. The file is purposely named 2022 to remind everyone that the event is part of the 2022 regional championship.

For those of you who are new to Nemadji, it is simply one stage road run out and back, then service, and then out and back again. So far it has been too warm for the road to freeze. There has been no accumulation of snow. Last weekend the road was smooth and fast.

We have never experienced any issues during open recce, even when the road has been icy. Please do recce with caution and be aware that there will be two-way traffic at all times. There is no cell service on the stage road or at either end of the stage road. The only reliable communication is via the radio net which will not be set up during recce. There are no access roads to the stage road, so we have no spectators. There are numerous ATV and snowmobile trails, so we have many marshal points to staff. If you have friends or family that want to watch; have them register as volunteers and they will be assigned to a marshal point. They will be "stuck" in position from about noon until "Green Light" passes after stage 4 at about 5pm.
