

Bulletin 2023-3
2023 ARA Specified Fuel for National O4WD and RC2
1/15/2023

These changes will be effective for the 2023 Championship Season.

Specified Fuel for 2023

The specified fuel per ARA Rally Technical Rules 2.2.8 for 2023 will be the FIA Homologated R5.1 fuel supplied by VP. Fuel can be purchased directly from VP and will be available for testing and tuning. VP has guaranteed the fuel will be available to all teams in adequate supply for the 2023 season.

The specified fuel will be available for pre-purchase prior to every National event and delivered on location.

Information about the fuel can be found here: <https://vpracingfuels.com/product/vp-r-5-1/>
